RAINBOW REIKI

Rainbow Reiki is a spiritual way developed in the 1980's by Walter Lubeck on the fundament of Traditional Usui Reiki, in-depth research on the roots of Reiki, Shamanism, Feng Shui, Meditation, state-of-the-art communication methods and spiritual psychology/psychotherapy. Rainbow Reiki is traditional Usui Lineage Reiki combined with additional Rainbow Reiki symbols and mantras plus more knowledge and techniques.

Unique Rainbow Reiki techniques help to expand the possibilities of healing and personal development far beyond the limits set up by the western mind.

The central patron deity of the Reiki system, Dainichi Nyorei, can be contacted with some Rainbow Reiki techniques to enhance personal development, healing, and to create spiritual wisdom.

Because the relationship between healer and client is very important for successful harmonization of any problems, the latest communication techniques like NLP, Voice Dialogue and alike have been transformed to special and very effective Rainbow Reiki tools.

Rainbow Reiki Feng Shui helps to create a wonderful, healthy atmosphere in gardens, apartments, houses and business buildings which supports success, constructive communication and general well being.
